

Series 530 Horizontal Sealant Tester

The Series 530 Horizontal Sealant Tester is designed to perform Aymar type tests at 1/8 inch per hour or variable speeds of 1/8 to 2 1/2 inches per minute according to ASTM C910, ASTM C736, ASTM C719, ASTM C1305, FEDERAL SS-S200, and FEDERAL TT-S230. We've improved upon our previous design with a touchscreen display, advanced controller options, and user friendly sample fixtures. When operating with an external freezer, users can now easily remove specimens without removing the entire machine.

Features

- User friendly sample removal
- Remote monitoring capabilities
- Optional cold chamber for testing to -30°F (-34°C)
- Eight pre-programmed languages available for selection
- Touchscreen controller with increased digital range, offering accurate and programmable control
- Additional sample fixture available for testing to ASTM D5849

Product Specifications

Speed	1/8 in/hr - 2 1/2 in/min
Specimen Capacity	8
Load Capacity	1,000 lbf (4.44 kN) divided by number of samples
Number of Cycles	0 - 9,999
Power Requirements	115 VAC, 1 ph, 50/60 Hz, 10 A or 230 VAC, 1 ph, 50/60 Hz, 10 A
Dimensions	Series 530: 29.5 in W x 19 in D x 12 in H Control Box: 11.75 in W x 14 in D x 13.5 in H
